

Contributing to Society through Materials Innovation

JSR Group practices a unique brand of CSR. For us, CSR is becoming a company that continuously grows while contributing to society through the provision of essential materials and a company that discharges its responsibilities to stakeholders in accordance with the Corporate Mission.

CSR Management

CSR Advancement Structure

JSR promotes CSR through a system of committees and a CSR Department established to reinforce CSR-related initiatives. There are four committees that function under the supervision of the CSR Committee: the Corporate Ethics Committee, which implements corporate ethics standards and works to prevent improper actions throughout the Group; the Responsible Care Committee, which works to realize a sustainable society through the implementation of initiatives that safeguard the environment, health, and safety; the Risk Management Committee, which seeks to further strengthen the Group's risk management system; and the Social Contribution Committee, which devises and promotes activities to help the Group make a contribution to society.

Compliance

JSR Group's concept of legal compliance is grounded in the principle of ethical action based on compliance with the law. The Corporate Ethics Committee promotes activities to encourage employees to maintain high ethical standards and act with fairness and integrity. We conduct a Corporate Ethics Awareness Survey at business sites in Japan and overseas to ascertain the state of awareness of corporate ethics among employees and identify issues and we prepare a follow-up plan to address any issues

identified in the survey. To strengthen compliance, in April 2013 we prepared the Compliance Handbook containing key points concerning laws and regulations to be observed and distributed it to all employees in Japan. In March 2015, JSR had issued a Korean compliance handbook based on Korean regulations and have distributed to JSR Group companies in Korea. We will thorough law compliance in Korea, too.

Risk Management

JSR Group considers preventing major crises from occurring and minimizing the effects of crises on business activities an important management priority and engages in risk management activities. Using an independently developed system, each division and Group company each year periodically identifies, assesses, and formulates countermeasures against a wide range of risks, including explosion, fire, major earthquake, and pandemic outbreak. We designate particularly serious risks as "major company-wide risks," and the Risk Management Committee and the CSR Committee manage improvement in risk management. JSR Holds crisis management training once a year, and our president directors the emergency headquarters. On FY ended March 2015, the training was held assuming that there was an earthquake under the capital of Japan (North of Tokyo bay). JSR will continue to prepare to ensure safety, reduce damage and continue business in case of serious crisis by various trainings.

We hold quarterly results briefings, seminars for institutional investors and analysts, and technical seminars (JSR Tech Seminars) and promote wide-ranging two-way communication.

Aiming to increase corporate value by creating business opportunities through materials

Amid growing calls for corporate social responsibility, the Global Compact enables companies that operate on a worldwide level to declare their commitment to observing the Compact's ten principles. The principles include human rights, labor, the environment, and anti-corruption. Having declared its participation in the Global Compact and its commitment to act responsibly as a member of the international community, JSR Group will work even harder to actively fulfill its social responsibilities.
