

OVERVIEW

CORPORATE MISSION

MATERIALS INNOVATION

WE CREATE VALUE THROUGH MATERIALS TO ENRICH SOCIETY, PEOPLE AND THE ENVIRONMENT

PROFILE

JSR Corporation (formerly Japan Synthetic Rubber Co., Ltd.) was established in December 1957 under the Special Measures Law for the Synthetic Rubber Manufacturing Industry with the aim of pioneering synthetic rubber production in Japan. Since transitioning into a private corporation in 1969, JSR has expanded its petrochemical business from synthetic rubber to include emulsions, plastics and other materials, and has augmented business operations for the semiconductor, flat panel display and optical materials fields by leveraging proprietary polymer technologies. The promotion of the Fine Chemicals Business based on IT materials has served as a gateway to innovative changes to the company's business structure and we changed our company name to JSR Corporation at the timing of 40th anniversary on December 10, 1997.

Recently, the Life Sciences Business as the third business pillar is expanding its scale through measures such as mergers and acquisitions (M&A). A new company was established at the Plastics Business through a merger, too. Also, the previous Fine Chemicals Business was changed to the Digital Solutions Business to seek new business opportunities. We will achieve sustainable growth by steadily overcoming issues in each business fields and increasing our profits.
