FORCES SUPPORTING CORPORATE VALUE

## **GLOBAL NETWORK**

JSR was established as a national policy concern to pioneer synthetic rubber production in Japan and started production in 1960. Since then JSR has continuously expanded its business and currently four main business segments: Elastomers, Plastics, Digital Solutions and Life Sciences, are conducting business not only in Japan but in the US, Europe, China, Korea, Taiwan, Thailand and others. Our business has increased substantially overseas in the last decade.

customers.

The recent rise in environmental awareness has led to the introduction of a labeling system that promotes the wider use of fuel-efficient tires in Japan, EU, Korea, and China, and is expected to be introduced in the United States, India, and other countries. Moreover, technological demands for high performance tires are also on the increase with the spread of electric vehicles, and our solution polym-

erization SBR (SSBR) is set to provide a range of solutions for all the diversified needs of our

## **Digital Solutions Business**

[Semiconductor Materials Business]

Target markets where major semiconductor manufacturers are now located have spread to Europe, the United States, Korea, Taiwan, China, and Japan. JSR Group has secured manufacturing bases in each region of the world to develop and provide cutting edge materials that enable the evolution of semiconductor chips in a market driven by innovation in digital technology, such as with the development of IoT and Big Data.
